

airoad@dubetradeport.co.za

Dube AiRoad provides seamless air-to-road and road-to-air logistics for the making of time-critical deliveries. Dube AiRoad is a dedicated, time-sensitive logistics fleet that will collect cargo and deliver it straight to the Cargo Terminal, connecting it to major cities and airports in South Africa.

With a refrigerated trailer option, cold chain integrity of sensitive cargo such as flowers, perishables and frozen goods is also secured. This unit has the added advantage of being able to cater for the simultaneous transport of

perishables requiring two different temperature settings, saving customers valuable time and money.

All the heavy duty Taut-Liner Trailers are equipped to carry Airfreight ULD Containers; and are equipped with the Hydra-Roll system.

Dube TradePort's Euro 5 emission-compliant trucks offer customers the opportunity to 'green' their supply chain.

FACT FILE:

1. Collect and drop off within a 6-hour radius of Dube TradePort.
2. Flexible pricing.
3. Dube TradePort is strategically located between the two largest seaports in Africa - Durban and Richards Bay.
4. The Port of Durban provides connectivity to 53 international destinations and access to hinterland distribution networks.
5. The region is home to a multi-cultural cosmopolitan society with an abundance of skilled labour.
6. Dube AiRoad connects the Cargo Terminal to major cities and airports in South Africa.

DUBE AIROAD: The dedicated Dube AiRoad time-sensitive logistics fleet is based at Dube Cargo Terminal.

Dube TradePort is stimulating transit-orientated development around the airport and is fast becoming the catalyst for global business and trade by providing a platform for integrating supply chains, accelerating efficiencies and offering business the agility to compete globally.

To be competitive in both the African and the global economy, businesses require speed, agility and time-critical capability.

Now businesses may access a purpose-built airport city close to the busiest seaport in Southern Africa and major freeways and railways. With an airport built to land the latest new generation large aircraft, Dube TradePort is Southern Africa's premier logistics platform, and is situated within a 30-minute drive from the city centre of Durban, KwaZulu- Natal, South Africa.

It is home to King Shaka International Airport and houses four flexible cargo stands to serve Dube Cargo Terminal.

Dube TradePort consists of:

- Dube Cargo Terminal: Providing a fully-automated and secure air-freight-handling facility, with direct access to Dube TradeZone;
- Dube TradeZone: A 77-hectare specialist precinct housing manufacturers, assemblers and distributors;
- Dube City: Providing premium office, retail, hospitality and leisure space in an urban 'green' precinct adjacent to the airport;
- Dube AgriZone: Providing Africa's most technologically advanced future farming facility; and
- Dube iConnect: Providing South Africa's most advanced metro Ethernet Network and IT and telecommunications platform.

Dube TradePort prides itself on its dedicated and continuous quest for improved airfreight transport solutions, effectively fulfilling customer needs in an ever-changing airfreight environment. The operation of a scheduled daily AiRoad route gives customers the flexibility needed whilst ensuring an uninterrupted cold chain. This is a service offering which is unique to Dube TradePort and its Cargo Terminal.
